VIRTEO

Virteo (www.virteo.com) is a young and dynamic company. We started 4 years ago and are a real FinTech player. We work with parties in the legal sector, such as bailiffs, lawyers and their ties with the order-to-cash processes of all sorts of companies. In this branch, we are the gamechanger with our SaaS and platform approach. Our focus is business model innovation, technology and usability.

To realize this, we invest a lot in our team, our people. We build top-teams of enthusiastic people with top-skills. From our side, we do our utmost to be a top-employer and to create the space to develop yourself. Our core values are authenticity, respect and freedom. We find it important that you feel comfortable and involved in Virteo. Therefore, we go for the new way of working, where traditional hierarchy, fixed places and hours are replaced by an informal and flat structure with a lot of flexibility in place and time, and with colleagues that you can count on.

To enforce our team in Mechelen, and to ensure our growth, we are looking for a

Medior .NET Developer

Job content

- You will work in a team of 3 developers, creating a new web application for 1 of the leading Belgian banks.
- You watch over the quality of the delivered solution.
- You participate in discussions on technical architecture.
- You translate existing mockups into web screens, and you are responsible for the technical design, development and testing of these screens.
- As an experienced .NET (web) developer you contribute to the efficiency of the team.
- You offer 2nd line support in a rotation system, in order to provide 24/7 support to the 1st line support team of the bank.

Skills

- You have a bachelor's degree in (Applied) Computer Science or higher.
- You have at least 4 years of professional experience in .NET projects.
- You are a team player and experienced with working in a scrum team.
- You have experience in a complex technical project.
- You can also approach and solve a problem independently.
- Experience with Azure, ASP.NET MVC, Entity Framework, SQL Server, NServiceBus, are considered assets.
- Experience with one of the bigger SPA front-end frameworks (Angular, React, Vue), are considered assets.

Join us and choose for…

- A challenging function in a dynamic working environment with flexible work opportunities.
- The possibility to invest in your personal development.
- A place in a motivated multidisciplinary team, where you can contribute to the realization of a unique innovative platform for the banking sector.
- An attractive payroll package with many extra-legal benefits, an on-call compensation for 24/7 support, and the choice between a representative company car or a mobility budget.
- An employment in Mechelen. In consultation with your colleagues, you will have the possibility to partly work from home.
